|--------------------------------|--|
| Indicator | Campylobacteriosis incidence |
| Demographic Group | Wisconsin residents |
| Numerator | Number of Wisconsin campylobacteriosis cases reported |
| Denominator | Total Wisconsin population |
| Details about Data Item | Reports are keyed into the state database. |
| Reference Time Period | Calendar year |
| Data Source | Communicable disease reports, Bureau of Communicable Diseases and Preparedness, Division of Public Health, Department of Health and Family Services. |
| Additional Information | Chapter 252, Wisconsin Statutes, requires health care providers to report communicable diseases to the Department of Health and Family Services. The statute defines that the reporting party (usually a laboratory) shall state so far as known the name, sex, age and residence of the person, the communicable disease and other facts the department or local health officer requires. |
